NABA IT SOLUTION

Krishak Smart Card & eVoucher System

Government Policy

01 Farmer Digital Profile

A secure, dynamic National Farmer Registry linked with NID and biometric authentication

02 Smart Card Distribution

Issue Physical + Digital **KSC** as a secure e-wallet for subsidies

03 Subsidy Distribution (eVoucher)

To ensure rapid and transparent distribution of rehabilitation assistance, including need-based government subsidies, an effective e-voucher or e-subsidy distribution system through smart records should be introduced.

04 Big Data, IoT, Blockchain

Use of big data, IoT & blockchain technology with smart card to modernize agricultural management

NABA IT SOLUTION

Consortium Partners & Roles

NABA IT SOLUTION

DHAKA

- LEAD CONSORTIUM MEMBER
- Expertis in local execution
- Leading software consultant

TiCON

Lets Enjoy Power of Solution

- Local execution lead with 17+ years in AI, Cloud & Govt portals
- Dhaka R&D Center ensures 24/7 on-ground support
- Specialized in rural digital inclusion (voice-guided/offline apps

axxonsoft

EUROPE

- Intelligent monitoring for 300+ dealer points & warehouses.
- Real-time behavioral detection to prevent leakage.
- Deployed in statewide security platforms (e.g. Mexico)

Mühlbauer

High Tech International

GERMANY

- Global leader in smart personalization & issuance (Germany)
- Deliverd national IDs for kenya (25M+), El Salvador(6.2+)
- Provides tamper-proof hardware & biometric security

LG CNS

SOUTH KOREA

- Large-scale government digital transformation & smart cities.
- Backend integration for national-scale data management
- Predictive analytics & blockchain-ready audit trails

NABA IT SOLUTION

Proven Experience: Relevant References

TICON

QR eVoucher Pilot

Bongha, South Korea

KEY RESULT

100% Traceability & **Zero Leakage** recorded.

Relevance: Exact replica of the proposed eVoucher redemption workflow, inventory reconciliation, and real-time DAE monitoring dashboard.

TICON

Voice-Guided Agri App

Jeonju Hanok, South Korea

KEY RESULT

98% Delivery Accuracy in remote areas.

Relevance: Offline-first design with voice prompts addresses low literacy and poor connectivity in Bangladesh's Haor/Char regions.

LG CNS

AI Smart Farm Platform

Naju, South Jeolla Province

KEY RESULT

Predictive Yield Forecasting & **Optimized Subsidies**.

Relevance: Direct model for KSC's extension services, climate-smart advisories, and data-driven policy planning (DLI 5).

MUEHLBAUER

National Secure eID Programs

Kenya (25M+), El Salvador (6.2M+)

KEY RESULT

Multi-million secure issuances with **Near-Zero Fraud**.

Relevance: World-class blueprint for physical + digital KSC issuance, biometric authentication, and tamper-proof NID linkage.

AXXONSOFT

Statewide AI Video Platforms

Puebla & Atizapán, Mexico

KEY RESULT

Rapid response to **Diversion & Unauthorized Access**.

Relevance: Ready-to-deploy AI surveillance at 300+ dealer points to prevent input leakage, ghost redemptions, and collusion.

NABA IT SOLUTION

Smart Farm Analytics & Advisory

AI-driven insights empowering farmers and optimizing national policy planning.

Personalized Advisory

Targeted fertilizer dosage (Apply X to Zone B) and timing recommendations delivered via SMS/Voice to maximize efficacy.

Yield Forecast Dashboards

Predictive modeling for DAE policy planning, enabling proactive subsidy allocation and supply chain adjustments.

Weather & Soil Integration

Real-time integration of soil health data and weather patterns to trigger automated alerts for pests, moisture, and nutrients.

+15-25%

EXPECTED PRODUCTIVITY LIFT
